

DELEGATIONS FROM ITALY

Hi!

My name is Isabel and I'm 15 years old. I come from Bolzano, the beautiful capital of South Tyrol. I go to school at the FOS „Marie Curie“ with Tourism and EUREGIO. I can speak German, Italian and English fluently. I learn French at school so after the fifth year I hope to speak french fluently as well. My role is to take pictures and write articles in italian. I love taking pictures, because you get in contact with many people and you have the chance to improve your language-skills. In general I like going on vacations, meeting new people and getting to know different cultures!

My name is Janka Vida. I am sixteen years old and I was born in Hungary. I have been in South Tyrol (Italy) since I was four years old.

I am interested in languages, travelling and meeting new people. The reason why I joined at YPAC is because this years topic really sounds appealing to me and I would like to find relatable solutions with the other YPAC members and I can't wait to get to know them.

Hi, my name is Evelyn Röggl, I'm sixteen years old and I come from Natz, a small town near Bressanone, in South Tyrol, Italy. I'm attending the 3rd grade of the FOS in Merano. This is my first year being part of YPAC, I am a delegate of the 4th committee "Youth participation". I decided to participate in YPAC, because I'm interested in politics and I think that for a good future it is important that the youth is informed and actively stands up for it. It is more than time for change and I want to be a part of this changing.

My name is Nils Augscheller. I'm 17 years old and my hometown is Merano. In attending the 3rd grade FOS Marie Curie in the direction Biotechnologies. This is my first year at the YPAC. I make part of the press-team and I'm specialised in social media. I hope we'll have a wonderful week.

Hi, I'm Jana Platzgummer a delegate of the Merano delegation and part of committee 3. I'm 17 years old and in the 4th form. I really like playing some music and hanging out in our beautiful nature. I think it's really important to discuss about the changes that are happening now and don't regret later that nobody cared. I can't wait to get to know you all, see you soon here in Merano.

Hello, my name is Elias Berger and I am 18 years old and from the delegation of Merano. My position in this years YPAC is the editor in Chief. Personally i think that the topic from this year is very important, not only for the young people but for everyone because everybody has to live with the changes of our earth.

Hi, everybody! 😊 My name is Katharina Wimmer and I'm 18 years old. This year will be my fourth and last YPAC, because I'll finish school this summer. Nevertheless, I'm super excited and it will be my first time as a member of the press, so my job will be kind of new for me, too. Beside of being active in our local youth parliament and the YPAC, I enjoy being out in nature, reading and of course spending a lot of time with my friends! Furthermore. I am really interested in

Hi, I'm Armando Xoxi from the delegation of Merano. I'm 18 and this year I'll be Platform Future and delegate for the 1. Committee Ecology. I really like biology and that's why I chose this topic. During my free time i really like to go in the nature or to read.

I am Alexander and I am fifteen years old. I live in a little village called Pfelders. The village is 40 kilometers away from Merano. This is the first year I participate on the YPAC. I have chosen to go to the press group and being a member of it, because I very like to write and I like to work with social media like Instagram. I think the topic: "how to cope with climate change" is well chosen, because we have to do something for our future. I am looking forward to meet some new people and I hope I will create new international friendships.

Hello! My name is Martina Patzleiner, I'm 15 years old and I'm from Toblach. Toblach is in the west of South Tyrol, exactly in Pustertal, that's why I'm from Monday to Friday in a student home. At the YPAC I'll work in the press group as a writer because I love writing and I think that I can meet many new people from other countries, I can learn something new and I'll improve my English.

My name is Sophia and I am sixteen years old. I'm from a small town near Merano (it's called Marlengo). I am very interested in politics, human rights, current topics which cause problems and I like to talk about deep things. It's the first time that I participate at the YPAC. I have chosen to be a press member, because I like to write articles and to be close to the occurrence. I'm especially looking forward to meet some new people and I hope we will have a lot of fun together and gain new experiences.

Hi, my name is Vittoria Zamperoni. I'm sixteen years old and I'm from Bassano del Grappa, Italy. This is my second year doing ypac and I'm a delegate in C4 . I really enjoy singing, reading books , acting and also studying languages , such as english , french and Korean

I am Gloria Costa, I am 17 years old and I come from Bassano del Grappa, Italy, where I am attending Liceo "G. B. Brocchi". This is going to be my second YPAC and I am going to participate as a delegate. I was introduced to YPAC last year, when a teacher who is one of the project representatives invited me to take part in it. One thing that I really enjoy about YPAC is getting to know new people. In my opinion, the opportunity of speaking English (a language that I really like) with so many students from different countries is what makes this project so rich and important for the development of ideas.

My name is Leonardo and I'm 18 years old. I attend the Liceo Brocchi in Bassano del Grappa and I'm in the last year. That's my third YPAC and I'm going to be a Platform Future delegate this year. My course of study is focused on Humanities, but my favorite subject is actually Maths. In my spare time I do athletics and play the piano. Once a week I also meet with a boy scout group. Next year I'm going to study Economic and Management at university. I like challenges and I'm open-minded, always ready to accept new ideas.

My name is Alice Andrea Dall'Alba and I'm seventeen years old. I'm from Breganze a small town near Bassano del Grappa. I'm currently attending Liceo G.B. Brocchi and more specifically the traditional scientific course. In my free time I like listening to music and walking my dog. I first became interested in YPAC when it was hosted in my hometown and my teacher told my class about it. This year is my first time taking part in YPAC. I am the press representative of my delegation. After school I would love to study medicine or genetics.

I'm Allyson Obber from Bassano del Grappa. I'm 18 and in my last year of high school, which is the classical gymnasium (it means we focus on Humanities, like Latin and Ancient Greek). This is my fourth and last time participating in YPAC, now as a President. I love debating and discussion of any kind, which is part of the reason why I like this project so much (this, combined with the real-life effects and the attention to the environment). I also adore languages and philosophy.

My name is Matilde Pellizzari and I'm 16 years old, so I'm in the third class in the Liceo Classico G.B. Brocchi. I've never participated at the YPAC before, so I'm really excited about this new experience. My English teacher has talked to me a lot about this project and I found it a great opportunity for me. I have the role of delegate of Committee 2 into the YPAC, but I haven't taken part in the preparations. I have a lot of interests: I love playing the violin, the piano and the guitar and I really like dancing, acting and writing songs. I don't know exactly what I will do in the future, but I want to go to university to study a scientific subject like chemistry or biology and I really want to study in a music academic course.

Hi, I'm Elisa Trentin and I'm 17 years old.

I'm participating to the YPAC project for the first time as a delegate for the 3rd committee.

As for my hobbies I really like reading, drawing and baking; I'm also an historical reenactor.

I'm not much of a sporty person, but I enjoy hiking and I'm a fencer. In the future I would like to continue studying at university (probably History or Botany) and move to northern Europe.
